RTD resumes elevator service at Nine Mile Station following repairs

Bus shuttle service suspended as elevator service to platforms has returned

DENVER (June 23, 2023) — The [Regional Transportation District \(RTD\)](#) announced today that repairs have been completed to both elevators serving the Nine Mile light rail station for the H and R lines.

The elevators were rendered inoperable earlier this year due to water damage.

RTD provided bus shuttle service during the repairs so customers could access the pedestrian bridge and rail platforms. The bus shuttle service has now been suspended as the elevators are back in service.

RTD thanks its customers for their patience as the agency works to make lives better through connections.

ABOUT RTD

The Regional Transportation District develops, operates and maintains a public transportation system that meets the transit needs of close to 3 million people within an eight-county service area in the Denver Metro region.
