

Southeast Corridor Track Repair Weekly Update

SE Corridor Track Repair Update

Date:	8.9.2024	Reported by:	Dennis Hanson
Time (military):	0700	Job Title:	Manager, Light Rail MOW

Work completed in the last week :

This weekly report covers Saturday 8/3/2024-Friday 8/9/2024

In the last week, the Maintenance of Way (MOW) team installed 426' of rail in segments #54 from Dry Creek station to County Line station and segment #55 County Line station to Lincoln station. There will be minimal work performed Saturday August 10 and Sunday August 11 this week due to a short work window and power shortage on the weekends.

Rail distribution, replacement and slow zone mitigation will continue Sunday August 11 primarily in segment #55, County Line to Lincoln station on the southbound track during the extended 11:00pm-5:00am work window.
