

## Southeast Corridor Track Repair Weekly Update

### SE Corridor Track Repair Update

<b>Date:</b>	11.15.2024	<b>Reported by:</b>	Dennis Hanson
<b>Time (military):</b>	0745	<b>Job Title:</b>	Manager, Light Rail MOW

**Work completed in the last week :**

This weekly report covers Saturday 11/9/2024-Friday 11/15/2024

In the last week, the Maintenance of Way (MOW) team installed 140' of rail, including two beveled stock rails on switches in the Southeast corridor between University and Yale stations. The team worked ballast defects in the Southeast, Central Platte Valley and Parker Road corridors through ballast distribution, ballast dressing and tamping. There will be minimal work performed Saturday November 16 and Sunday November 17 this week due to a short work window and people power shortage on the weekends.

Rail distribution, replacement, rail grinding, ballast work and slow zone mitigation will continue Sunday November 17 in the Southeast, Southwest and Parker Road (R-Line) corridors.
