

## Southeast Corridor Track Repair Weekly Update

### SE Corridor Track Repair Update

<b>Date:</b>	12.2.2024	<b>Reported by:</b>	Brian Farris
<b>Time (military):</b>	0900	<b>Job Title:</b>	General Superintendent, Light Rail MOW

**Work completed in the last week :**

This weekly report covers Saturday 11/23/2024 to Monday 12/2/2024 due to the Thanksgiving holiday.

In the last nine days, the Maintenance of Way (MOW) dumped and dressed ballast in the Parker Road corridor. Hand grinding was performed at the switches in the I-225/I-25 junction. There was minimal defect mitigation work performed due to the weather and the Thanksgiving holiday.

Rail distribution, replacement, rail grinding, ballast work and slow zone mitigation will continue Sunday December 1 in the Southeast, Southwest and Parker Road (R-Line) corridors.
