

Southeast Corridor Track Repair Weekly Update

SE Corridor Track Repair Update

Date:	2.14.2025	Reported by:	Brian Farris
Time (military):	0630	Job Title:	General Superintendent, Light Rail MOW

Work completed in the last week:

This weekly report covers Sunday 2/9/2025 to Friday 2/14/2025.

Due to weather conditions, two of the three-day scheduled shutdown in the Parker Road corridor for rail grinding were canceled. Rail grinding was performed Thursday morning in the Parker Road corridor and will begin again Monday February 17.

560' of rail has been delivered in the Southwest corridor in the overnight maintenance window for future installation. Rail grinding was performed between I-25 & Broadway and Evans stations before weather hampered any further progress.

No slow zones were removed this week.

Rail distribution, replacement, rail grinding, ballast work, and slow zone mitigation will continue Sunday February 16 in the Southeast, Southwest and Parker Road (R-Line) corridors.
