

## Investment Status

# Installing Solar Inverters at East Metro Bus Facility

**RTD is meeting challenges  
and delivering transit  
services to the communities  
we serve.**

## Location

East Metro Bus Facility

## Description

Installing inverters that convert DC electricity from rooftop solar panels into AC electricity for the East Metro bus facility to prepare for future use of electric or hybrid vehicles. This investment will improve reliability for our customers.

## Phase of Investment

Design

## Milestones to be completed in 2026
