

## <Your organization> and RTD team up for Denver downtown rail project

<Your organization name> and the [Regional Transportation District \(RTD\)](#) are partnering to keep you informed about the Downtown Rail Reconstruction Project. RTD will undertake a multi-phased [project](#) to reconstruct miles of light rail track in downtown Denver. The first phase of the reconstruction project will begin in May and focus on five segments of at-grade rail and street intersections in the Downtown Loop.

After almost 30 years of continual service, some parts of the 5.3-mile corridor, which extends between I-25•Broadway and 30th•Downing stations, require a full-depth reconstruction.

Beginning May 26, all D and H line trains will be rerouted to Denver Union Station, and L Line service, which connects 30th•Downing Station to the Downtown Loop, will be suspended. No light rail service will operate in RTD's central corridor until September 2024. Following the completion of the project's first phase in September, crews will pause reconstruction work until 2025, and all light rail services will resume normal operations.

The agency created a website with photos, illustrations, maps, detour information and project timelines for the public to access. The website is available at [rtd-denver.com/railproject](https://rtd-denver.com/railproject) and will be continually updated during all phases of the work.

RTD encourages customers to visit its [website](#) for information and sign up for [Service Alerts](#). Customers are also encouraged to use the [Next Ride web app](#) to plan trips and see bus and train locations in real time. For additional route and schedule information, RTD's Customer Care agents are available 6 a.m. to 8 p.m. on weekdays, and 9 a.m. to 6 p.m. on Saturdays, Sundays and holidays by calling 303.299.6000.
